**THE PLANNED END OF CANADA:** The Supreme Court Reference re the Secession of Quebec\* is a fraud. There is no such thing as a "duty to negotiate" the end of Canada, as the Supreme Court pretended to find in 1998. Their goal is to annex not just Quebec, but all the Provinces, to the US and Mexico to form a "North American Union" under the legal and political regime of the European Union. That was the *real* purpose of the Clarity Act, the first draft of which was written by Stephen Harper long before the Supreme Court "thought" of it. They are aiming at free trade with the European Union by the end of this year, 2008, and North American Union by 2010. Wake up now, and STAND UP FOR CANADA.

From sovereignty referendums to Free Trade to NAFTA to TILMA to SPP, our Prime Ministers have all been deliberately dismantling Canada for their corporate bosses.
